

Specifications:

Features

Gravity Boots paired with the EZ-Up™ Inversion Rack or Inversion Bar offer an economical inversion option. Designed for the fit and flexible user, the Boots provide a practical method for full inversion as well as an excellent platform for exercise.

Gravity Boots can also be paired with the inversion table* for added comfort and ankle support. The standard ankle clamps easily interchanged with the Adapter Kit.

* not for use on the F9000 or Power table

Removable calf loops place a 2-degree bend in the knees to help reduce the load on the knee joints and the top of the foot. As well as provide proper alignment of the leg, allowing the user to invert and exercise without added strain on the spine

Made of patented Dupont™ Hytrel™, a light and durable material that provides a flexible and comfortable fit

Soft 1.6 cm (5/8 inch) foam lines provide maximum comfort with minimum compression

Dual self-locking ratchet buckles, each with a double-lock system for security

Hooks and calf loop are made of 40% glass nylon alloy, for a stronger Gravity Boot

Warranty

5-year

Assembly

Arrives assembled
